Randy Ratliff - R&R Marketing

Dear Limousin Breeders,

21 years ago the Deer Valley Farm Limousin program was established and for 19 years I have had a close business and personal relationship with the owners Fred and Rinda Clark along with Kim Clark and manager Jonathon Perry. They have been close personal friends and are the nicest and most considerate people I could ever imagine.

In 1986 Fred and Rinda Clark along with Fred's daughter Kim Clark began creating and developing what is known today as one of the best herds of Limousin Cattle in North America. Nothing but time stood in their way of creating and developing the DVFC brand in purebred Limousin genetics. Along the way they have experienced nothing but great things with their Limousin cattle. They have shown countless champions and received many premier breeder and exhibitor awards at all the major shows across the country. They have exhibited and raised national champions, All American Futurity Champions and National Junior heifer show champions. But I know if they were writing this letter they would say the biggest award they have won is the friendships they have built along the way.

It all started with investing in the once national gold medal bull PLLP Muscat from the prominent Powerline herd and their foundation cows from the long running Walters & Gordon herd in Pulaski, TN. Since 1986 they have built from that and over the years with the leadership of Kim Clark and manager Jonathon Perry and cow manager Terry Adkinson have created the long running DVF herd of cattle. Jonathon and Terry got their start in South Georgia when they were responsible for the success of the Dorminy Brothers program. From that point they began their work at DVF and it has been strong ever since. J.P. and Terry work at this business as if it was their own and that is what makes them good at what they do. They are as honest and reputable as you would ever want and handle each situation in the most confidential manner. I am proud to call them my friends and if you have not met them I urge you to do so. There are several families that work day in and day out at DVF and they do not go unnoticed. As they always say in business, you are only as good as the people that you surround yourself around. The Deer Valley Farm program is built on quality genetics ran by only the finest people they could find.

As you study and read this entire catalog you will see the many cow families created over the years and the successes that have come their way. Buy with confidence and rest assured these cattle will work for you.

If R & R Marketing Company or any of the marketing staff can be of assistance please don't hesitate to call. We will handle your conversation and bidding in the most confidential manner.

Sincerely,

Randy Ratliff
