Double polled, Homozygous black and a big time donor for Deer Valley Farm and the Stephans Family is DVFC Dream Weaver. She is a moderate framed daughter of JCL Black Out and from the prominent SLVL Dream Cookie 138D. This donor cow is really maternal in her look and very broody in her appearance. She has been used extensively in transplant and her eggs and her daughter sired by EXLR New Generation 071M will be highlights for any program.
