This double polled, double black daughter of DVFC Nina 145N is one of the top young heifers in the entire dispersal sale. For the last 21 years Deer Valley Farms have been major suppliers and breeders of the some of the finest Limousin cattle in our breed. This daughter of DVFC Nina 145N is sired by the leading double homozygous sire AUTO Dollar General 122R. His daughters are just now in production and are doing a fabulous job with milk and raising calves well above average. We are excited about showing you this heifer and seeing what you think about her on sale day. 250U and her sister 239U represent the best of the best and stem from one of the most consistent cow families ever created in 21 years of production.
